March 26, 2010: Unemployment numbers were updated to reflect the most recent month’s values. These are found on the “Performance” tab of the “Workforce” category.

March 25, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

March 18, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

March 16, 2010: Unemployment numbers were updated to reflect the most recent month's values. These are found on the "Performance" tab of the "Workforce" category.

March 4, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

February 26, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

February 24, 2010: Housing data updated to reflect new weatherization figures and other updates.

February 17, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices

February 9, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

February 4, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

January 29, 2010: Highway data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

January 28, 2010: Highway data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

January 25, 2010: Housing data updated to reflect new Weatherization figures.

January 21, 2010: Transportation data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed.

January 19, 2010: Highway data updated to reflect most current situation for scheduled advertisement, bid openings, notices to proceed and projects completed. Information on the Actual Federal Expenditure and Reimbursement of ARRA Funds was added to the Transportation, Performance Tab.

January 11, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

December 22, 2009: Housing Data Updated to Reflect New Projects.

December 17, 2009: Environmental Data updated to include current projects and allocations.

December 11, 2009: Housing Data updated to reflect updated weatherization figures.

December 9, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

December 7, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

December 2, 2009: Added an interactive help page to the site.

December 1, 2009: Overall totals for some counties and jurisdictions updated to reflect most current stimulus amounts.

November 24, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

November 19, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

November 17, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

October 30, 2009: Multiple local highway projects can be funded by a single ARRA contract. In these cases, we added information to explain that the individual projects are only part of a larger contract. Overall Stimulus amounts per county were re-computed to reflect updates to the individual categories.

October 29, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notice to proceed and projects completed.

October 28, 2009: Local Highway projects within Baltimore City were added to the map.

October 26, 2009: Transit data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

October 19, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

October 8, 2009: Overall Stimulus amounts per county were re-computed to reflect updates to the individual categories.

October 7, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, notices to proceed and projects completed.

October 5, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, and notice to proceed issued.

September 25, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, and notice to proceed issued.

September 17, 2009: As we are working to continually improve this site and provide citizens quality, accessible information, several updates and changes have been made. The site has been updated to include Phase 2A highway projects. These projects are newly announced additions to our Recovery funded project schedule as a result of lower than expected bids on our original Recovery projects. In addition to the 2A highway projects, highway data has been changed from project cost estimates to actual bid prices. Local projects were added to the map and performance statistics have been updated.

September 15, 2009: Housing data updated to reflect most current situation for the TCAP and Section 1602 programs. Individual projects within these programs show estimated project costs, actual project costs will be added as the projects reach completion.

September 11, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, and notice to proceeds issued.

August 21, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, and notice to proceeds issued.

August 20, 2009: Transit funding was specified for each county in the breakdown.

August 17, 2009: A glitch in the location of the “sonar dots” for individual projects within the “Other” category was corrected.

August 17, 2009: The Transportation Facts tab was updated to explain that the “Show Individual Project on Map” feature does not include area wide projects and that information about all highway contracts, including area wides, is accessible through the “ARRA Highway Projects” link.

August 7, 2009: Highway data updated to reflect most current situation for scheduled advertisements, bid openings, and notice to proceeds issued.

August 3, 2009: Added the Other category to include ARRA funding provided for Americorps* centers in Maryland as well as Arts Organizations. Projects and organizations funded by these programs were also added to the map, and can be viewed by clicking the “show individual projects” button.

July 31, 2009: Updated environmental projects and weatherization goals by county to include correct allocations. Also clarified the data meaning for weatherization goals.

July 28, 2009: Updated public safety allocations to include COPS awards announced. Updated Education facts tab to provide detailed information on programs, as well as a link to external MSDE resources.

July 27, 2009: Updated allocations data and included new ARRA programs. Due to state administered funds, the sum of funds allocated to individual jurisdictions is not equal to the total for each program. Information on the use of state-administered funds, new programs, and a detailed explanation of data changes will be available later this week.

July 27, 2009: Six transportation project contracts were awarded. Detailed information on the Contractors awarded the six contracts was added to the attribution.

July 23, 2009: Housing data was updated to reflect current data. In addition, the Low-Income Housing Tax Credit Program was added to the housing section. Note that due to ARRA administrative funds received by DHCD, the sum of funds allocated to individual jurisdictions is not equal to the sum for each program.

July 23, 2009: Within Transportation Facts, the link to Regional ARRA Highway projects was changed to include all ARRA Highway Projects, including site specific projects.

July 22, 2009: Transportation Environmental Project number AX6795168 in Cecil, Kent and Queen Anne's Counties was corrected to show \$230,000 as the cost. Some targeted transportation projects that were not 100% funded by ARRA funds were removed from the map.

July 21, 2009: The site was modified to add this page and link to describe changes that have occurred on the site and map. Further detailed changes will be described in this document as those changes are implemented.
